

2020 ISS (International Schumpeter Society) Conference
July 8-10, 2021 at LUISS University, Rome, Italy
CALL for PAPERS

IMPORTANT NOTICE: depending on the evolution of Covid-19 pandemic, the Conference will either take place onsite in Rome or online. The final decision will be taken in April. By submitting a paper, the authors agree to participate in the Conference in both cases.

The biennial conference of the International Schumpeter Society will be held in 2021 in Rome, Italy and hosted, either onsite or online, by LUISS University for the three days of July 8-10, 2021. The Schumpeter Prize ceremony will be on July 9.

The theme of the conference is “**Schumpeterian Perspectives on Radical Change: Robotics, Artificial Intelligence and Broad Societal Transformations**”. The conference will bring together scholars, policy makers and practitioners, working on broad issues related to innovation from a variety of perspectives. It also aims to foster an interdisciplinary exchange of knowledge.

We invite you to submit abstracts (800 words) of your papers to be considered for presentation at the conference or proposals for thematic sessions. Proposals for sessions should include: a title for the session, the name(s) of the session coordinator(s), a brief presentation of the entire session, a list of 4 or 5 papers to be included in the session with authors and abstract for each of them.

We also welcome proposals of sessions for presentations of new books.

Submissions are now open through the conference website: <https://iss2020.it>

We will provide some financial support for the selected graduate students (or young scholars), in particular those from developing countries. The exact amount will be decided later, depending upon ex post budget situations. Those in need of such support can write to the conference chairman.

Following the tradition, selected papers presented at the ISS 2020 conference will be published in a special issue of Journal of Evolutionary Economics (official journal of the ISS), as well as an edited volume by the Cambridge University Press.

IMPORTANT DATES

Deadline for submissions: March 31, 2021 at midnight Central European Time.
